

WEND PANGA BENCH  
Recycled bronze  
Design by Ambre Jarno

Height	43	cm
Lenght	292	cm
Width	66	cm

Each piece is handmade from recycled metals in Burkina Faso and finished in France. Bronze is a living material and oxidizes with age and environment which makes its beauty. Variations, stains and imperfections in the texture finishes are part of the artisanal process Maison Intègre is vividly supporting.
